Fifty destroyers to England. Maybe it's better that way. In 1917-18 we sent men—many of whom never returned.

Labor Day 1940 is history. The next holiday of note will be Armistice. It also comes on Monday will provide a nice weekend holiday for those fortunate enough to get away from their duties.

Dike work payrolls will soon be a thing of the past on Lake Okechobee as the federal government intends to close its rebuilding of the dike on the east shore of the lake. These regular payrolls have been a boon to merchants in our area.

This summer's building program in the Lake Region probably eclipses that of any other summer. Dozens and dozens of new buildings have been erected since the close of the vegetable season last spring. A growing territory—this Lake Okechobee farming region.

County school board members report that everything is in readiness for opening of school on Sept. 19. As usual, there are a few last minute changes in teacher line-ups, but the board and Superintendent Leonard are always ready for such emergencies.

The Baptist and Methodist churches in Canal Point set some kind of a record with the recently closed dike season. Bible school in the school during the two weeks of operation. Congratulations to those who had the workings of the school in charge.

Coach Frank Holston and thirty prospects of Blue Devils are at Flaming Arrow camp near Auburndale for a two-week training period. With an inexperienced crew of players, Holston will have to perform some of his usual magic to turn out a winning team for the 1940 season.

An Everglades Chamber of Commerce could do a great deal in helping solve many vital problems facing the growing area. With every community around the lake represented in such an organization a program of development could be started, that when accomplished, would open the eyes of the entire state.

Freeholders of Pahokee will go to the polls in a special election next Tuesday to determine whether the town shall issue \$25,000 in bonds for a new town hall. The bond issue provides for payment of the money over a period of 25 years. Every freeholder should participate in the election. After all, they are the ones who will do the paying.

The Rotary club of West Palm Beach recently honored its immediate past president, Judge C. E. Chillingworth, for his excellent tenure of office. The West Palm Beach club can count itself fortunate in having had a man like Judge Chillingworth as its president. And, Palm Beach citizens can count themselves fortunate in having C. E. Chillingworth as judge of the circuit court.

DEMOCRACY GETS THE BENEFIT

Those who have been told to view with alarm the power of advertising would do well to consider its accomplishments.

It has raised the standard of American living by introducing new product after new product into our consciousness and homes. It has reduced the price of commodities after commodity by increasing acceptance and decreasing manufacturing and selling cost.

More than any other force, advertising in this way contributes to democracy. It breaks down the wall between our rural and urban populations. The farmer and small-town dweller learn about the great metropolitan market centers, and the metropolitan dweller learns about the farmer and small-town dweller.

Those who oppose advertising as an essential part of mass selling are really opposing mass production and, in so doing, are opposing the American way of life.

HIGHLAND CATTLEMAN TO PLANT 90 TONS OF GRASS SEED THIS FALL

Selecting highland county cattleman will need, approximately 180,000 pounds of grass seed this season for additional pasture plantings, according to County Agent L. H. Almyer.

Harvest of seed for the establishment of plantings is being done now extensively now than in past years to avoid spending any more time and money for purchase of seed.

In a small demonstration area of giant Bermuda grass on Joseph Duran's place near Brighton, a strip which received 100 pounds of dolomite limestone and 30 pounds of bluegrass per acre showed an increase of 200 per cent of grass since these materials were applied in January, Mr. Almyer reported.

are trying to deny to the average person the articles he wants at prices he can afford to pay.

So the crusade against advertising is either ignorant or sinister. And like all crusades led by ignoramus or by rascals it has met the opposition of every thinking American. Like law, like business, advertising is some thing which intelligent people are determined to have.

Advertising prospers as it serves. Despite all the handicaps imposed by its enemies it is flowering in this country as it is in every independent part of the American system of free enterprise and of American democracy.

SUGAR ON THE TOBACCO

Everglades cane growers would ordinarily be viewing with alarm the present low state of the domestic sugar market. But just now they have reason to believe it may prove a blessing in disguise.

When raw sugar is quoted at 2.53 cents recently it reached the lowest point ever recorded under the import quota system. Why it has not gone even lower remains something of a mystery in view of the condition of the world market and the fact that import quotas for 1940 are expected to run at least 200,000 tons above the needs of consumption.

Suppose the downward trend should continue. What then would be the excuse for continuing the quota system? Protection for the producers is its only reason for existence. Should that fail to be accomplished supporters of the quota system would lose their chief argument. It is expected this may have something to do with the senate's delay in acting on legislation to extend the present sugar quota to the end of 1941.

As a result of the domestic market might even prevent its passage. That is why Florida producers are not so much worried about low prices as might be the case under other circumstances.

As a result of the domestic market might even prevent its passage. That is why Florida producers are not so much worried about low prices as might be the case under other circumstances.

FULLER'S FULMINATIONS

by Fuller Warren

The opening of football season is not far off. It should be the season of all seasons. But it takes a strong team to give this season the gayety it should have.

Florida high schools had many fine football teams. These winning teams evoked great enthusiasm in their particular communities, which had a wholehearted and enthusiastic support.

Among the many minor needs of Florida is a winning football team. This condition has been a sore spot for some time.

The people of Florida are not averse to a championship football team. This condition has been a sore spot for some time.

The people of Florida are not averse to a championship football team. This condition has been a sore spot for some time.

about. Contrary to general belief bragging is not an outright evil. Epistolary boasting about personal prowess is almost universally effective. But a little bragging, a sort of secondary boasting as it were, such as bragging off about a championship.

Florida football team would be most wholesome. It would excite the spirit, expand the ego, and value the Varsity Game Day.

A great Great football team would be a tremendous unifying force for the people of our state. Florida is stretched out over a lot of land. It is along long way from Pensacola to Panama (Dade county). If you don't believe it, try speaking that distance. The people of Florida have many things in common. There is a wide diversity of people making up Florida's two million population. This condition has been a sore spot for some time.

Back in the days when Alabama's great Crimson Tide football team crashed right through all opposition in its march to the national championship, I visited in Alabama occasionally and saw how these great teams welded the people of that state together in the bonds of a common and national interest. The humbler his hands and the bigger his heart, the more he would gather around the team and listen with pride to the mighty feats of the Crimson Tide.

Compliments. I have seen a team that has been to the national championship. I have seen a team that has been to the national championship. I have seen a team that has been to the national championship.

Here Are a Few Things That Happened 15 Years Ago In The Glades and Were Recorded By The Everglades News

Trade in and out of Canal Point and transportation across the state by way of Lake Okechobee may be made by a float, they seem to depend on traffic will be maintained. That was made certain by action taken this week by residents of Canal Point.

It was the first week of September, 1925. The weather was better than a deer's hide. The first football scrimmage was being held. It was very rough. Clemons was playing tackle. He was pushed around, stepped on, and kicked occasionally. Finally Coach Shering (now a celebrated fruit grower) came out and told him he could go to the showers in the gymnasium.

He was hot, tired, perspiring, bleeding and generally irritated. He started for the gym. Dr. Noonan, who along with Judge Cook never missed a scrimmage, and very few practice sessions of the football team, stopped Clemons and gave him a short pep talk, concluding it with this statement: "Justin, old fellow, remember we are expecting a whole lot out of you this year."

About two weeks later the university opened and the registration of students began. Clemons got a schedule card and went to see Dr. Noonan. He explained that he wanted a course of study that would interest him only in football playing. He handed his schedule card to Dr. Noonan and asked him to use his best judgment in selecting such a course. Containing his remarks with that education. And remember, Dr. Noonan, I'm expecting a whole lot out of you.

A special graduation program will be presented at next week's meeting of the Pahokee Rotary club with Rotarian Irwin Wiley in charge. F. E. Sharp, president of the Pahokee Rotary club, will be the guest speaker. Mr. Sharp is one of the outstanding farmers in the Monroe county area and is thoroughly up to date on the going on in the South Florida farming.

Mr. Wiley plans for each Rotarian to take a guest to headquarters and several Pahokee club members have also been invited to the "big day" of the program. That around 75 Rotarians and guests will be in attendance next 1926 between Dr. J. W. Noonan Thursday.

The hot lake for the foundation of the Owners' highway drainage over St. Lucie canal at the lake was placed the latter part of last week. This lake was on the north side. Unless something unexpected happens, the bridge will be completed sometime in November.

Nearly additional boxes have been ordered by Postmaster R. M. Baker, which will more than double the number of boxes at the Canal Point post office.

Principal of the Moore Haven school this year will be Professor Jones.

The Misses Ben Denton, Laura Henson and Eugene Parrino are leaving Tuesday morning for their various schools.

Miss Hilby Friend, who has been attending school at Plaquemine Academy in North Carolina, is home for a visit.

In Pahokee school opened Monday with 108 pupils. We have never had a more promising outlook for a good school year than this.

Special work on agricultural land. 2. Investigational work, including topographic, soil and ground water surveys.

3. Completion of construction of several control dams in the Bolles and Indian Prairie canals.

4. As a part of the work outlined in No. 1, above, it is planned to extend the dike running eastward from Twenty-six Mile Bend for an additional distance of about two miles, depending on ground elevations at the eastern limit of the dike. The latter part necessary for this dike will serve as a part of the canal if extended.

5. Recent correspondence with the U. S. Army has indicated the desirability of securing additional information before a decision is made to complete this canal.

6. The completion of an experimental water control system, consisting of gates and dikes along North New River canal from Twenty-six Mile Bend to the mouth of the dike.

7. Investigation and report on the feasibility of a canal connecting the Lake Okechobee with the Gulf of Mexico.

8. Investigation and report on the feasibility of a canal connecting the Lake Okechobee with the Gulf of Mexico.

9. Investigation and report on the feasibility of a canal connecting the Lake Okechobee with the Gulf of Mexico.

Meeting the Challenge of the Times...

As our nation looks to its defenses, speed is the order of the day. And vital to the quickened tempo of industry and national activity is the county's telephone service.

From sea to sea, in every corner of the land, it must function smoothly, quickly, regardless of the added burden it is called upon to bear.

In the nine southern states served by Southern Bell, more than twenty-one thousand skilled telephone workers with years of experience in meeting emergencies, are keenly conscious of the important part they play in the national defense program. They accept this new and challenging responsibility with full confidence, for they are prepared—organized, trained, and equipped—to meet the test of the time.

Southern Bell and the entire Bell System are in high gear. They are meeting the nation's needs today. They are ready to meet those of tomorrow.

new Southern Bell Telephone and Telegraph Company, Incorporated.

But "The Masses" were not so foolish, after all!

Less loudly now, you may still hear an occasional agitator blasting away at the American system of business—which depends on big factories, big networks of dealers, trade-marked goods, heavy advertising, and low prices.

Agitators complained for years that "the masses" were injured by this system, and that we'd all be richer if we went back to the old cracker-barrel days.

But in spite of the complaints, little factories which have made dependable goods grew into big factories. Dealers insisted on having trade-marked goods, which their customers could recognize. And the heavy advertising helped to give us our modern newspaper, magazines and radio.

Who built this system? The masses built it, by insisting on crackers they could recognize in the package, on automobiles, soap, soap-chewing gum, cigarettes, and all other articles that carried well-known trade names.

So the agitators have had to pipe down. They have discovered that "the masses" were not so easy to lead astray after all.

responsibility with full confidence, for they are prepared—organized, trained, and equipped—to meet the test of the times.

Southern Bell and the entire Bell System are in high gear. They are meeting the nation's needs today. They are ready to meet those of tomorrow. —Southern Bell Telephone and Telegraph Company, Incorporated.

WEST PALM BEACH BELLE GLADE

TOO LATE TO CLASSIFY

By Russell Kay

Continuing with our east coast tour: Before leaving West Palm Beach I took time to drive by the home of my friend Mr. Charles Springfels for a look at his famed Mango tree which produces fruit weighing three pounds or more. Never have I tasted a Mango so delicious. One given us by Springfels, when thinly peeled and sliced, provided eight generous servings. He calls it the "Superior" and cannot fill the demand at \$1 each. The most of the fruit is delicious, but buyers consider the seed more precious.

The ocean front drive south from Palm Beach is delightful. Water coloring on the Atlantic ranged from deep ultramarine to light green topped with an occasional bay whitecap. Well kept grounds of lovely estates awaited our vision on the other hand.

Vacationing natives and visitors were everywhere in evidence along our route. Bathing, picnickers, girls in slacks and shorts, fishermen casting in the surf or dangling bird lines from wharf or bulkhead, kiddies romping in the sand, alert canines chasing gulls or sandpipers, pelicans flying low in perfect formation or dropping an unsuspecting minnow, while the warming sun and cooling ocean breeze battled each other for control of the temperature with results that for our part proved pleasant and comfortable.

Miami Beach, convulsed with growing pains, forced us to pick our way through traffic jams caused by streets partly blocked with all manner of building material. Here new buildings spring up like mushrooms overnight. It seemed to me there were more hotels than people, with a hundred or more in the building. Yet they told me, with all her accommodations, Miami could not handle the winter, unable to secure a room. Magic Miami, experiencing her best summer season, gladdened the sunlight like an enchanted metropolis in a fairy story.

Thanks to her energy and enterprise, Miami is "Florida's coconuts" less millions of Americans who know nothing of the real Florida that lies beyond the limits of this small area. The charming ridge section with its emerald lakes and green-shaded hills, the busy trucking centers, the endless fields of waving cane, the lazy Suwannee as it makes its way through fields of cotton and tobacco, the rolling red clay lands of Leon, the countless winding waterways where Nature still holds sway, fish leap and tropical birds wade or wing their way to sheltered rookeries, industrial centers where great ships are born and factories flourish; the sheltered coves where fishermen spread their nets, great springs that bubble and gurgle within their crystal depths; historic spots where crumbling, vine-covered castles and mysterious shellmounds tell of an earlier day in this and Miami too, FLORIDA.

Enjoyable at any time, but thrilling as a first experience, is the trip from Miami to Key West. You journey south through busy bustling Miami, suburbs, over a velvet smooth highway that carries you through the rich Redland tract and trucking section to the enterprising city of Homestead. Then you leave the mainland for Key Largo which carries you to the real jumping-off place. Previous with limited vocabularies term this particular stretch of road "bumpy" or "sway".

It is hard to place here but I might suggest that if your under plate isn't anchored tight you'd better take it out before you start, and don't expect too much from springs or snubbers.

We were ready to stop and rest when we reached Marathon Key where Mrs. Brown made us mighty comfortable at her delightful Overseas Lodge which is strictly modern with large airy well-furnished rooms and cuisine that is the best.

Signs along the highway invite you to stop for Turtle Steak or Lime Pie. Two specialties found only on the keys, while fresh seafood of every description is always available and we found prices for both food and accommodations most reasonable.

Deep sea fishing, of course, is a major attraction and there are numerous camps where one may stop and secure a guide and boat. We waited, however, to reach Key West and after being comfortably

located at the La Concha hotel we arranged with Pauley Artman, son of the publisher of the Key West Citizen, to take us on a fishing excursion in his "trip little boat".

The Marlin, Eugene Dobson and Gould Curry served as instructors, and carrying us to the Gulf Stream, they saw to it that we had plenty of fish, fun and amusement. Everyone in the party caught something. The barracuda, mackerel and bonito gave us plenty of excitement and while we didn't catch a sailfin we saw one haul in a neighboring boat.

Key West has taken a new lease on life with renewed activity at her naval base. The town was full of officers, sailors and marines while a never ending stream of tourists and their share to keep things lively. There is only one Key West and you have not really seen Florida until you visit it.

At The Theatres

Deanna Durbin and Lewis Haydon in "It's a Date"

"IT'S A DATE"
PILOT MOVES SWIFTLY

The story begins on Broadway moves swiftly to Miami and finally to Hawaii. Deanna and Lewis Haydon are the stars. Deanna is a producer, a part Deanna tries to refuse when she learns her mother wants to play it. Pre-arranged love for Pilgrimage and acting she will "give up her career". Deanna sets out in pursuit of the boyhood Pilgrimage, who later for the mother is secretly returned. Who gets the role, and gets the man, is outlined in a script and one suitable finish to one of the year's most entertaining pictures.

Lois Howard stands out as Deanna's boyfriend. Eugene Pallette has another great comedy role as the governor of Hawaii. Samuel S. Hinds, Cecilia Loftis, Fritz Felt and Henry Stephenson are also outstanding in support. A definite "find" is R. Z. Sagar, Hawaiian actor seen in a play.

Major Owens and Ma Tammie, Royal Hawaiians contribute to the national fun.

SLENDERIZES FACE
WAISTLINE

"Alice" Fay's already slender waistline had to be slenderized six inches more for her portrayal of the first girl in "Lillian Russell" featuring Don Ameche, Helen Broderick, Edward Arnold and Donald Crisp.

The feat was accomplished in scenes of a wardrobe contest and although it caused Mrs. Fay discomfort at first, she soon got accustomed to it as well as the "two girls" she had to wear in her hair. These provided a panorama that would stand up under the "laser" eye tests that were worn in Lillian Russell's era. The long strands of artificial hair were popular then.

MEMORY CAN'T SERVE YOU... as well as your

DIRECTORY

Look Up the Number Before You Call

Memory is a tricky thing. If it doesn't fail altogether, it sometimes gets things twisted. This is especially true in the case of figures, and explains why calling telephone numbers from memory often results in getting wrong numbers. This is annoying to both you and those you call by mistake. So be sure of the number before you make a call. Look it up in your telephone directory. It will save your time. You will avoid disturbing others unduly, and you will spare yourself the embarrassment of getting wrong numbers.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY INCORPORATED

Carriers Look to Opening of Road 26

Motor transport carriers looked about to the opening early in 1941 of State road 26, between Miami and Lake Okechobee, and were soon Monday to have applied for the right to operate over it with passengers and freight.

The state railroad commission set a public hearing for September 20 in the courthouse at Miami at which carriers will present their claims for the right to run buses and trucks over the route.

Four companies seek the right to carry passengers, and three of them and two additional carriers, a total of five, want to transport freight over the new road.

Passenger services would be offered by Florida Motor Lines Transportation Service Company of Jacksonville, Southern Distributing Company of Miami and Glades "K" Motor Lines of West Palm Beach.

Freight services would be provided by Transportation Service Company, Southern Distributing Company, Glades "K" Motor Lines, Tarrant Trail Tours and Great Southern Trucking Company.

Each company aimed several times to be served and gave as an alternate route the highway leading from Route 26 into Fort Lauderdale, Miami Herald.

Silver Springs is experiencing the greatest summer tourist season in its history, according to "Shorty" Davidson. Several thousand tourists visit the Springs daily and in order to accommodate the

crowds it has been necessary to start boat trips as early as 6 A. M. The War Department announced this week the transfer, effective Sept. 1, of the 23rd composite group and the 113th Air Base Squadron, with medical detachments, from Maxwell Field to Orlando, Florida.

AN UNUSUAL COMBINATION OF SERVICES.

2. Augustine Sept. 5 1788

At the request of Thomas, material which was left over in repairing a section of St. Augustine's ancient buildings, will have it

10

clusion in the famous fireplace being erected in the Dutchess county New York, clubhouse of the notorious ball team, "The Nine Old Men."

At the request of Thomas, material which was left over in repairing a section of St. Augustine's ancient buildings, will have it

place among 200 other stones historic monuments from all over the world. The base of the first place will include stones from the Pyramids and other ancient ruins of Egypt and Mesopotamia.

The presentation will be made through Judge David Dunham, president of the St. Augustine Historical Society.

Members of the famed New York "Nine Old Men" include Gen. Tunney, Colonel Ted Roosevelt, Congressman Ham Fish, Roy Chapman Andrews, Dr. Will Beebe, Lanny Ross, Colonel Stoopnagle, Lew Lehr and others.

A demonstration of "Selevision," termed the "Robot Auctioneer," was given at a special meeting of the Tampa chamber of commerce Wednesday of this week. Growers, shippers and others interested in our agricultural marketing problems.

requested by the railroad.

NOTICE TO VOTERS
This is notice to you and each of you that the general Election of the Town of Belle Glade will be held at the Town Hall on Tuesday, September 10, 1940, from 9:00 a. m. Eastern standard time until 6:00 p. m. on said date, and that two commissioners will be elected on said date for two year terms.
This 8th day of August, 1940.
C. A. REDMER,
Town Clerk
Publish: Aug. 9-16-23-30 & Sept. 6, 1940
